

**Did you know that 80%
of jobs are filled through *networking*?**
**Are You Ready To Help Someone
Network Up?**

Network Up is a short-term mentoring program that matches under- or un-employed men or women with a volunteer mentor. You meet 2 to 5 five times at a local coffee shop or café for a conversation focused on helping your mentee create or expand his/her professional network; and establish a career strategy and job search plan.

Mentors provide a wealth of experience, knowledge, and networking connections to help mentees land — and succeed in — the right job for them!

Are You Eligible to be a Mentor? *You Must Be:*

- an established professional living in the Northern Virginia area
- looking for an opportunity to become involved in your community
- interested in helping people develop their professional goals and networking connections
- willing to use your expertise and knowledge to help someone advance their career

Network Up is NOT a job placement program. Rather, it is a workforce development opportunity designed to help someone achieve their career goals.
