

AWS re/Start Certified Cloud Practitioner Graduates Seeking Paid Internships

AWS re/Start is collaborating with Britepaths, a Fairfax-based nonprofit that works to help struggling Northern Virginia families achieve financial stability and build resilience through financial literacy and workforce development. Britepaths will support learners throughout the AWS re/Start program and help them launch careers in cloud computing. Together, AWS re/Start and Britepaths are excited to help individuals develop in-demand cloud skills and prepare for jobs in and around their local communities.

IT'S A WIN-WIN

Our AWS-certified graduates can help your organization fill in-demand positions including:

- Cloud Operations – implementing configurations as directed and designed by others
- Technical Support – serving as the first line of triage in simple infrastructures
- IT Automation – scripting simple tasks through Python
- Network Support – building networking configurations and debugging

Reasons to invest in our AWS-certified graduates:

1. They possess foundational cloud skills needed to succeed in entry-level positions
2. Their diversity brings ingenuity, creativity, problem-solving skills, and great people skills to your existing company culture
3. They are highly motivated and driven to perform successfully
4. Investing in entry-level talent will save budget and unlock an untapped resource pipeline

If your company is interested in learning more, please contact Sally Meyer, Workforce Development Director, at 703.273.8829 or SLMeyer@britepaths.org.
